Discussion:

Do you remember the different kinds of prayer we learned in the lesson video?

(Praise, Repent, Ask, Yield)

It's good to continue to learn about prayer, because it is such an important part of our lives with God! Learning different ways to pray helps us to understand what praying really is!

Activity:

Write out the letters PRAY down your paper. Write the different types of prayer that goes with each letter across the paper to make an acrostic.

On the back, draw a picture of something you want to pray about, or write out a prayer to God on the back of the paper or in your journal. The most amazing thing for us to remember about prayer, is that God loves us so much that He listens and hears every single prayer we pray. Remember when we talked about the different answers to prayer God gives? Yes, no, and not yet! He knows the best answer for us, and we can trust Him every time!
